The Benefits of being a Professional FOREX Trader

Financial Freedom

Self Employed

Spend More Time With Your Family

Work From Anywhere - Imagine "Working" From The Beach While You Are On Holiday

No Boss, No Office, No Schedule

To reiterate something, "...Professional FOREX Trader." There is a difference between a FOREX Trader and a Professional FOREX Trader.

Take every opportunity available to you to help you become a Professional FOREX Trader. The greatest tool you have at your disposal is the **Interactive FOREX Education** Solution.

Getting a high quality FOREX education will help you build a rock solid foundation. With a great FOREX education, almost anyone can become a Professional FOREX Trader.

Are you ready to achieve a level of trading success that few have ever seen?

Interactive FOREX Education

A Skills Development Solution from ASTARA TRADER

Are you in one of these groups?

Retirees

Students

Recent Graduates

Employee looking for a change of career

Employee looking to supplement or replace income

New Traders Seasoned Traders

Your potential success is determined primarily by the quality of your education. However, don't underestimate how important YOU are in this equation.

After all, no one cares more about your future than YOU do.

Don't let yourself fall into the pattern of the overwhelming majority of FOREX Traders...not sustaining a steady profit.

The fact is that you will lose something when you begin FORX trading. The question is what, time or money? If you attempt to trade the FOREX without a proper FOREX education, you will lose money. If you prepare yourself with the **Interactive FOREX Education** Solution, you will invest money and risk only a small amount of time.

The ultimate result that you want from a FOREX Trading Course is to become an independent Professional FOREX Trader. You want to attain the skills necessary to make your own trading decisions, not follow along with someone else's trades, or be dependent on someone else for signals.

Interactive FOREX Education Solution provides you with the best FOREX Trading Education available.

Are the benefits of being a Professional FOREX Trader appealing to you?

Are you willing to invest in yourself?

Do you want to control your own financial future?

If you've answered "yes" to any of these questions, it's time to take the next step towards becoming a Professional FOREX Trader.

Interactive **FOREX** Education

A Skills Development Solution from ASTARA TRADER

Features of Interactive FOREX Education Solution:

Simplicity Your FOREX Education would be worthless if you don't understand what you are learning.

Ongoing Support In order to become a Professional FOREX Trader, your FOREX education needs to be ongoing.

No Affiliations Since many trading courses are offered by companies that profit solely if you make trades, you must be careful of courses that will “teach” you to over-trade.

Valuable to All Levels of Experience Make sure that your FOREX Trading Education will be able to carry you from beginner all the way through to elite Professional FOREX Trader. If you are already a veteran, be certain that the information for which you are paying is relevant to you.

Independence By far the most important aspect of your FOREX Education is YOUR independence. This means that you are not reliant on anyone else to make your trades. No trading signals, no newsletters, no software...just you.

Some of the so-called features offered by many of the lower quality educational options available:

Jargon Many people love to use big trading words. Well, to us, the simpler the better. It is far more important for you to understand what we teach than to impress you with our knowledge.

Lack of Mentorship Not only do you need a foundation, you need constant education when you attempt to trade the FOREX markets. Many people attempt to sell a CD or a class, after which you will never hear from them again.

Affiliated with a Broker/Bank Remember, a bank/broker makes money when you trade, not when you learn. So, their teachings will steer you towards overtrading. Unfortunately, that will end up costing you money.

Designed for Beginners I have purchased so many products only to realize...”I ALREADY KNEW THAT”. You must be sure that what you are learning will not only reinforce what you know, but expand you knowledge.

Trading Signals STAY AWAY. O.K., let's face it. If someone had a “holy grail” of trading, they wouldn't share it with you. Also, no one cares more about your future than you do. So why put your future in someone else's trust?

Software By this we mean software that generates trading signals. That brings us back to our prior point.

In order to become a Professional FOREX Trader you must learn to be independent. Ultimately, you must take responsibility and credit for all of your trading decisions instead of relying on someone else's.

The major benefit of investing in the **Interactive FOREX Education** Solution: "an abbreviated learning curve".

The normal path of the beginner trader:

- ❶ Excitement about the opportunity available in the FOREX market
- ❷ Spend a few hours setting up an account, not necessarily a demo account.
- ❸ Read a few success stories and assume, "If they can do it, so can I."
- ❹ Lose a majority of their account
- ❺ Replenish their account
- ❻ Repeat steps 3 - 5 until they have decided enough is enough.

These steps can easily take months, but may happen in as short as a matter of weeks. At the end of these 6 steps, you could have lost anywhere from a few hundred to many thousands of dollars while never actually improving your trading skills.

Using the rules provided in the top notch **Interactive FOREX Education** Solution, you should never be in the position to lose your entire account. Instead, the only risk of money and/or time would be the cost of your FOREX Education.

Generally, your learning curve is shortened by months once you are properly educated. This, in addition to the money you will save by following the rules laid out to you in

Interactive FOREX Education Solution, will exponentially shorten the amount of time and/or money it will take before you can make the transition into an Independent, Professional FOREX Trader.

Are you ready to achieve a level of trading success that few have ever seen?

Interactive FOREX Education

A Skills Development Solution from ASTARA TRADER

The FOREX market is the best trading vehicle available today.
What makes the FOREX Market superior?

Unmatchable liquidity The FOREX market is a more than \$3 trillion a day market. This is more than the Dow and NASDAQ combined. Due to this liquidity, there are some amazing advantages not available in other markets.

Guaranteed Stops and Limits Quality FOREX brokers/dealing desks will guarantee no slippage on your stop or limit orders. There is no other market that offers that. Scalability due to the size of the FOREX market, you have the opportunity to compound your profits to extents unheard of before. This means that, with the help of **Interactive FOREX Education** Solution, you can achieve astonishing returns on your investment.

24 Hour Trading The FOREX market is open 24 hours a day, 5½ days a week. It closes Friday afternoon and reopens Sunday afternoon. Other than the obvious advantage of flexibility, this is another characteristic unique to the FOREX market.

Number of Charts to Watch Since there are only 4 major currencies on the FOREX market, and maybe 4 others even worth mentioning as a trading option, you are limited to a very small number of charts that you must follow. This gives you the opportunity to learn all the fine points of the currencies you are trading. As you know, every bit of knowledge helps.

Technically Based The FOREX market are known for being very technically sound. Much of this is due to the liquidity and the 24-hour a day trading. Whatever the reason, the FOREX tends to be more technically predictable than any other market.

Tougher Market to Manipulate When dealing with a single stock, any comment made on any business channel or newspaper can greatly affect its price. In fact, the comment doesn't have to come from a qualified individual. However, in relation to the FOREX market, there are only a handful of people in the world that could single handedly affect the markets. Additionally, when they are going to speak, it is scheduled. You will almost never be caught by a surprise move in the FOREX market.

100:1 Leverage The stock market only offers a 4:1 leverage to the biggest of traders. Enough said.

No Commissions Other than the spread on whatever currency you are trading, there are no commissions on the FOREX market.

No Short Selling Restrictions If you are not familiar with short selling restrictions, then move on to the next paragraph. If you are, then you can forget them. There is no such thing as waiting for an up-tick. There is no such thing as the "hard to borrow" list.

Knowing what is available in the FOREX market, we can not be conceived of one good reason to trade any other market.

Interactive FOREX Education

A Skills Development Solution from ASTARA TRADER

Why is **Interactive FOREX Education** Solution necessary for YOU

YOU want control of your financial future

YOU want the ability to improve your lifestyle, and

YOU believe in YOU

The **Interactive FOREX Education** Solution, offered exclusively by ASTARA TRADER, is a unique FOREX Trading Course designed to take you from the very basic through the most advanced of trading concepts.

Successful traders, based on their own personal experiences over years of trading, have created this exclusive **Interactive FOREX Education** Solution. Our instructors have discovered the characteristics that separate an average trader from a Professional FOREX Trader:

Discipline

Confidence

Aggressiveness

Instinct

These four attributes combine for one amazing feature...INDEPENDENCE.

Would you like to reach this level of independence?

- 1 **Interactive FOREX Education** Solution eliminates all the useless jargon. We have no interest in impressing you, only in educating you.

Countless people will attempt to sell you worthless information. It's their hope that you are overwhelmed by the quantity of their material, and overlook their lack of quality.

Every word, sound, and image in **Interactive FOREX Education** Solution can and will be used by you on an everyday basis.

- 2 We have condensed everything in **Interactive FOREX Education** Solution. Gas makes a car run. It's that simple. You don't need to know how the engine uses the gas, just the fact that you need gas.
- 3 The **Traders Community**, a division of ASTARA TRADER, provide you with ongoing mentorship. Soon you will not need mentorship, you will also be able to offer it. You will have unlimited access to our **Traders Community**, via email and Training Seminars after purchasing the **Interactive FOREX Education** Solution.

Interactive **FOREX** Education

ASTARA TRADER CC Forex Lesson

GBP/USD

Economic events cause the USD to gain weight (increase in value) thus pushing down the USD side of the scale. Sell the GBP

Economic events cause the GBP to gain weight, or the USD to lose weight, pushing down the GBP side of the scale. Buy GBP

In forex trading you can make money if the markets move up or down. The most lucrative financial market in the world, trading close to 4 trillion US Dollars daily.

The foreign exchange market (forex, FX, or currency market) is a worldwide decentralized over-the-counter financial market for the trading of currencies. Financial centers around the world function as anchors of trading between a wide range of different types of buyers and sellers around the clock, with the exception of weekends. The foreign exchange market determines the relative values of different currencies.

Interactive **FOREX** Education

A Skills Development Solution from ASTARA TRADER

The question is why should I learn to trade?

The response is simple....

At this time, I'd like to go on record as saying that I am not against the approach of choosing an active manager to invest or trade for you. I am, in fact, one of those active Forex Fund Managers.

However, understanding trading does more than just give you control over some or all of your own trades or investments.

When learned correctly, a trading education like the **Interactive FOREX Education** Solution gives you the tools to choose funds and fund managers with more confidence.

You also may find through the learning process that you are the best trader you can find.

Astara Trader's **Interactive FOREX Education** Solution not only gives you the tools to trade some of your own money as you see fit, but gives you a foundation to evaluate other investments and more importantly, other money managers.

Many people invest in the stock, bond, Forex and commodity markets without knowing how to trade.

Learning how to read market movement, recognize short-term and long-term reversals in multiple markets, measure, manage and most importantly, accept risk gives you the tools to begin to trade for yourself.

If you choose to let others trade on your behalf, those same skills, plus understanding drawdowns, risk-adjusted returns, etc., better prepares you to be involved in the managing of the money you have worked so hard to earn.

The question "Why should I learn to trade?" The answer is simple and in two parts.

Give yourself the option to continue to build wealth through your own competitive advantage and give yourself the knowledge to confidently choose the right people to help you grow and safeguard the money you've worked so hard to make in the first place.

Put the person you trust most as the head of your money management plan... yourself.

Tom Steenkamp
